

ANIMAL MEDICAL CENTER OF CHANDLER

Keep your pet healthy for less with our monthly payment plan

Regular preventive care is essential for your adult pet's continued health. Our wellness plans feature budget-friendly monthly payments making it easy to manage your pet's healthcare costs.

Why does your adult pet need preventive care?

Vaccinations help healthy pets stay healthy

Vaccinating your pet is the simplest way to keep many contagious and devastating diseases at bay. We'll work with you to recommend a vaccination schedule that's appropriate for your pet.

Disease can creep up quickly and quietly

Pets age much more rapidly than we do. So even if your pet looks perfectly healthy, illness and disease could be lurking undetected. Physical exams and diagnostic tests are crucial for finding problems not visible to the naked eye.

Prevention is the key to better health

Preventive care can improve your adult pet's quality of life and help add more healthy years. It's essential for detecting diseases early on, before they become more serious – and more expensive.
